

PRE-CONFERENCE WORKSHOPS & TUTORIAL

Exploring Generative AI : Frameworks, Tools and Real-World Apps

18 FEBRUARY 2025**Time : 10 am Duration = 3hrs**

Abstract: This workshop delves into the fundamentals of Generative AI, covering LLM basics, prompt engineering techniques, and practical tools like LangChain and Hugging Face. Participants will explore real-world frameworks and develop hands-on applications, gaining the skills to create AI-powered solutions effectively. Perfect for beginners and enthusiasts eager to build with Generative AI.

Topics:

- Introduction to Generative AI
- LLM Basics
- Overview of Prompt Engineering
- Prompt Engineering Techniques
- Exploration of Lang chain framework
- Exploration of Hugging Face
- Gen AI application development
